REACH

Regulation (EC) No 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) establishes requirements for the safe use of chemical substances within the European Union.

Article 33 of REACH requires suppliers of articles to communicate information regarding the presence of substances included on the Candidate List of Substances of Very High Concern (SVHC) when such substances are present in concentrations above 0.1% weight by weight (w/w). The updated list is available on ECHA website: <https://echa.europa.eu/candidate-list-table>.

In addition, Annex XVII of REACH sets out restrictions on the manufacture, placing on the market and use of certain hazardous substances, mixtures and articles. Updated list of restricted substances from Annex XVII, as well as the restriction conditions, are available on ECHA website: <https://echa.europa.eu/substances-restricted-under-reach>.

Based on information available from our suppliers, manufacturing processes and product knowledge, Dacapo Stainless A/S confirms that the stainless steel grades supplied by Dacapo Stainless comply with the requirements applicable to articles under Regulation (EC) No 1907/2006 (REACH), as amended.

Furthermore, to the best of our knowledge, no substances included on the current ECHA Candidate List of Substances of Very High Concern (SVHC) are present in our stainless steel products above the notification threshold of 0.1% (w/w) specified in Article 33 of REACH.

Based on available information, the stainless steel products supplied by Dacapo Stainless do not contain restricted substances in violation of the applicable restrictions set out in Annex XVII of REACH.

This declaration is provided to the best of our knowledge and is based on information obtained from our suppliers, manufacturing processes and product knowledge. It applies to stainless steel products supplied by Dacapo Stainless A/S and does not cover substances that may be introduced during subsequent handling, processing, fabrication, surface treatment or other downstream activities performed by third parties.

Kind regards,

Gabriela Lasauri
Group Quality Manager
Dacapo Stainless A/S
