To our customers

Haderslev, 2025

Nito products in relation to REACH

We are following the EU regulation 1907/2006 and subsequent amendments regarding REACH (**R**egistration **E**valuation **A**uthorisation and restriction of **C**hemicals).

This Regulation ensures a high level of protection of human health and the environment.

The candidate list from REACH for products that as such constitute a risk for human health and the environment, SVHC (**S**ubstances of **V**ery **H**igh **C**oncern) is continuously updated. We will continuously be in contact with our suppliers regarding this matter and ensure continued compliance with the regulation.

See the following links for further information:

<http://echa.europa.eu/candidate-list-table>

If Nito products contain a SVHC in an amount above the recommended limit, the details will be specified on the Nito product packaging, the delivery note and our website.

Yours sincerely

NITO A/S
