

## REACH DECLARATION

**Manufacturer's name** : CARLO NOBILI S.p.A. Rubinetterie

**Manufacturer's address** : Via Lagone, 32  
28021 BORGOMANERO (Novara)  
Italy

**Products** : Sanitary tapware

According to the article 33 of UE Regulation 1907/2006 ("REACH") and referring to Candidate List (250 substances) revised on 25<sup>th</sup> June 2025, CARLO NOBILI S.p.A. Rubinetterie declares that, in the produced articles, the chemical substances present in concentrations above 0,1% weight by weight are:

Name	Last update	CAS Number	EC Number
Lead (Pb)	Inserted in the list of 27 <sup>th</sup> June 2018	7439-92-1	231-100-4

The "Candidate list" of SVHC substances, or rather the list of substances candidate to be included in the authorization procedure for use, is periodically updated by ECHA and it's available at the link: <https://echa.europa.eu/candidate-list-table>

Lead is contained in sanitary taps because it's a minority component of brass alloy.

The presence of this substance doesn't involve any health risk because the brass alloys used by CARLO NOBILI S.p.A. (CW617N-DW; CW508L-DW; CC770S) are conform to national laws and regulation about contact with drinking water (UBA List, ACS, DM174).

Suno, 2<sup>nd</sup> July 2025
